

REMARKS

The Examiner suggested that the art recognized generic synonym "pyroxylin" should be substituted in the claims and identified in the specification and that the term "celluloid" should be capitalized wherever it appears and be accompanied by the generic terminology since it is a registered trademark.

In response to rejections and objection in the Examiner's September 30, 2004 Office Action, the rejected claims 1, 2, and 3 were amended by adding a word "pyroxylin" following the Examiner's suggestion, and the specification was substituted with an amended specification, in which the term "celluloid" was capitalized wherever it was used. The term "celluloid" was replaced with "pyroxylin" in appropriate occurrences. No new matter was added to the amended specification.

CONCLUSION

The applicant believes that the rejections and objection were obviated by the amendment of claims, and the application is now in condition for allowance: therefore, reexamination, reconsideration and allowance of the claims are respectively requested. If there is any additional comments or requirements from the examination, the applicant asks for a non-final office action.

The Commissioner is hereby authorized to charge payment of any additional fees associated with this communication, or credit any over-payment to Deposit Account No. 16-0310.

Very truly yours,
Park & Sutton LLP
